JOHN DWIGHT & CO'S
SODA SALÆRITUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to all others, both in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus, as a smaller quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and shows the consequences in the United States, by James G. Wilson, Esq. the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT PLANING, MATCHING CUTTER, PLANE, TONGUEING AND GROOVING MACHINE, throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the numerous Knife Planing Machines attempted to be palmed on upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find a substitute, the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, as revived by samuel Bentham, in the year 1791, in Albion Mills, which was pronounced in this country by Oliver Ridgley, some fifteen years since, and another one put up by Albert Rich sands, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that even Baker of Roxbury is experimenting upon these machines, not one in eight years has pronounced them worth taking, for any use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
Philadelphia."

May 19, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and the machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I offer to pledge One THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much faster in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

TUESDAY MORNING, MAY 4, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore
PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

THE STATE LOAN.—The *Commercial* is compelled to acknowledge its error in charging delay upon the Governor, and Messrs Marshall & Ilsley, in paying over the State Loan, but cannot quite come down to reason yet. In reference to our statement, that paper says:

In answer to another count it (the *Sentinel*) says that "no depreciated money has been paid in." A little further down it admits that $3,000 of the $15,000 already paid over was in bills on the North Western Bank of Virginia, quoted in Thompson's Bank Note Reporter, at 1½ per cent. discount. There may be a hidden consistency in the two statements imperceptible to ordinary visions. We can't see it, tho', upon our word, after "trying it on." We are obliged to ask a further explanation.

We are not bound to furnish both the explanation and the understanding to see its propriety. The bills referred to are by no means "depreciated currency," but pass from hand to hand, dollar for dollar, and are redeemable at the Bank at par. Can anything be plainer?

The *Commercial* still insists upon it that "paying out anything but specie for State indebtedness was a violation of the spirit and the letter of the Constitution," and complains that we don't offer any justification for such action. We did not think it worth while to notice the absurd charge. Let the *Commercial* examine the Constitution, and tell its readers honestly that there is no foundation for any such accusation, and it will gain credit for candor at least.

Gen. Cass and the Fugitive Law.

The Detroit *Free Press*, Gen. Cass's homeorgan, is bringing forward the documents to prove that Gen. Cass was "one of the ablest, most constant, and most efficient supporters" of the Compromise measures, and particularly of the Fugitive Law.—It reads the fact that on the 13th March, 1850, Gen. Cass said:

"My opinion is, sir, that we should take up the bill for the re-capture of fugitive slaves, reported by the Judiciary Committee. I am disposed to suspend all our discussions, and to lay aside all other business, with a view to act upon that bill, without unnecessary delay, and to pass it in such form as would be acceptable to a majority of this body.

Also, that on the 9th of August, the Gen. made a speech in favor of the bill.

It has never been denied that Gen. Cass *spoke* early in favor of the measures referred to, but much wonder has been expressed by many who did not understand the "circumstances" of the case, that he did not *vote* for the Slave Law.—With regard to this point it would seem by the following telegraph item that there has appeared another "Nicholson letter" of apology to the South:

New York, April 27.

It is said that Mr. A. P. Nicholson of Tennessee has in his possession a letter from Gen. Cass, containing his reasons for not voting for the Fugitive Slave Law, one of which is that it did not contain the trial by jury clause.

A SAMPLE OF "CHIVALRY."—The Columbus (Georgia) *Times*, a leading organ of Southern "Democracy" and an exponent, of course, of Southern "Chivalry," publishes in its issue of the 12th March an elaborate editorial criticism upon DANIEL WEBSTER'S noble address before the New York Historical Society. We copy the opening paragraph of this article as a notable specimen of good taste, fair dealing and impartial judgement:

MR. WEBSTER IN NEW YORK.—It has seldom been the good fortune of those who aspire to immortality, to get, whilst they live, a foretaste of the adulation which, in a general way, posterity may have in store for them. This, however, is not the case with the redoubtable gentleman with whose name we have honored this paragraph. He is in the full fruition, whilst still alive, of the praise which belongs only to the memory of the mighty dead. He sees himself the centre of an irresistible attraction, the theme of a swelling admiration which knows no bounds but in the circulation of his hyperborean newspapers, and the far flashing light emitted from the agglomerated wisdom of historical societies, or the rampant patriotism of monumental associations. *Mr. Webster is the impersonation of all that Yankee trickery and impudence which have given character to his fatherland*; a most villainous compound, in which is readily to be detected an ounce of merit to a ton of arrogant pretension and effrontery."

New England, Mr. WEBSTER'S "father-land," will be entirely willing, we fancy, to accept the great Orator and Statesman of America, as the "impersonation" of her character But we are somewhat surprised that any citizen, or Journal of Georgia, should disclaim all share in Mr. WEBSTER'S world-wide fame as an AMERICAN. One might infer that Georgia had so many "jewels" of her own to be proud of, that she could well afford to surrender her portion in Mr. WEBSTER'S glory for distribution among her sister States.—But if Georgia is so blessed, the secret has been well kept within her own borders.

"STILL HARPING."—The Free *Democrat* of yesterday had another half column of lamentations about the City Printing, and abuse and detraction of the Mayor, Clerk, Council &c., closing thus:

With the Bench, the Mayor, the Clerk and the *Sentinel* combined, the Jenny Lind Club hope to ride rough shod over the Charter, the Council, the Free Democrat, and the City.

All but "the Council, the Charter and the City." The only victims are the Free *Democrat* and the Black Swan Club, whose "official exponent" it is.

☞ All we can say, Mr. *Sentinel*, is, we hope that Senator Gwin will have leave to bolt the democratic nominee for President if his support depends upon a written pledge from that nominee to support the Fugitive Slave Law. Ditto to Col. Polk of Tennessee.—*Pt. Washington Bladr.*

Very well; but suppose the "written pledge," which Messrs. Gwin & Polk bespeak from the "democratic nominee for President," should *actually* be given, what does the *Blade* think about "bolting" then?

☞ The Chicago *Tribune* of the 23d contained intelligence of the opening of Buffalo Harbor, Green Bay and the Straits simultaneously.—*Buff. Com.*, 27th ult.

No other paper has the news. Instead of opening "simultaneously" the Straits have not yet opened at all. Nor is the prospect very flattering that they will do so before the 10th, or 15th of this month.

THE TRUE POLICY.—At the recent Whig meeting in New York City, Mr. Peyton, a staunch Virginia Whig, being called out, briefly addressed the crowd. He said that Gov. Jones must have "satisfied every true whig that when we come to a race, common sense dictates that the saddle should be put upon the fastest horse"—that the best candidate ought to receive the nomination, and all should join in his support.

THE SALUDA EXPLOSION.—Joseph Causey, the engineer of the Saluda, the recent explosion of whose boilers caused the loss of over a hundred lives, was mortally injured, but lived long enough to say that *he was the cause of the explosion, that he had no water in the boilers—consequently no steam*—but that he acted in obedience to Capt. Belt's orders.

☞ The *Commercial* of yesterday is at considerable pains to confirm our statement, in reply to an article in the Buffalo *Commercial*, that the Delegates from this State to the Whig National Convention, were not committed to Mr. FILLMORE. Much obliged, but it was quite unnecessary.

LA CROSSE AND MILWAUKEE RAIL ROAD.—The Commissioners give notice that books of subscription to the stock of the La Crosse and Milwaukee Rail Road Company, will be opened at the house of TIMOTHY BURNS, in La Crosse, on the 24th of June, and at the Milwaukee Bank, in the City of Milwaukee, on the 8th of July, and that five dollars on each share will be required to be paid at the time of subscription.

SENSIBLE CONCLUSION.—The *Free Democrat* express the belief "that Scott will be nominated and elected, unless Dodge is his competitor, of which there is little hope."

From the Overland Emigrants.

Mr. PAUL CRANDALL who recently left Rock County, with a party of Emigrants for California, writes back, under date of April 16th, from Jones County, Iowa, to the Janesvill *Gazette*, giving some items of their journey that far. Mr. CRANDALL describes the roads as shocking; the fatigue and exposure as very trying; prices for feed &c, as high; and the prospect generally as very discouraging. He thinks that a large proportion of the emigrants will *turn back* before they get to the frontier. We copy a portion of Mr. CRANDALL'S letter:

The crowd of emigrants have completely exhausted the hay from this place to Kanesville, distant 230 miles. Oats and corn are still to be had in this vicinity at reasonable prices; but we are told that grain is not only very scarce, but exorbitantly high, for nearly the whole distance now before. If the reports are true, it is highly probable that one-half the emigrants will be obliged to return, for want of funds to go forward. We have already met some with dismal countenances, homeward bound, and I notice very many elongated faces among those yet outward bound.

Our company are still firm, and determined to see more of the elephant. If we find it impossible to cross the plains the present year, we shall hold on to every inch of ground gained, and prepare for another year.

Report says that an unhead of number are already at and near the frontier, in quite a quandary about wherewithal to sustain their teams.—Provisions for man are said to be plenty and at reasonable prices. I am inclined to think that a large portion of emigration will return before reaching the frontier. If not, the distance of 250 miles will have to be traveled over with very little food for teams, which will render them entirely unsuitable for prosecuting the journey further.—There is at present no appearance of grass for the next month.

THE PRESS AND THE VETO.—The Western *Star*, published at Elkhorn, Walworth County, has the following comments upon the Governor's Veto of Mr. MARTIN'S Improvement Bill:—

The Legislature, if we understand the subject, have, in the case of the Northern Improvement in this State, transcended their constitutional powers. The Governor interposed his veto to save the constitution, and we believe conscientiously too, but all in vain. The thing must be done, constitution or no constitution, which by the way appears to be no more in their way than it was with the Emperor of Austria in the case of Hungary.

We believe the Governor was right, and the Legislature wrong. We believe too, that this is the opinion of a large proportion of intelligent men who have considered the subject.

Will the *Commercial* favor us with its opinion as to whether the *Star* belongs to the "respectable" class of papers in our State?

The Kenosha *Telegraph* (dem) alludes to the Veto in the following terms:—

The Veto of the Fox and Wisconsin River bill was overruled in the House by one majority, so that it is now a law. There is but little use for a Constitution, in a State like this, under circumstances which at present exist. Private interests are superior to the public good, in the eyes of those who expect to be benefitted by the outlays on this Improvement; and when that is the case, laws must be violated and constitutions rolled in the dust.

RAIL ROAD BONDS FOR BANKING SECURITIES.—The St. Joseph Valley *Register* calls attention to the new feature of Rail Road Bonds for Banking securities in the General Banking Law of this State, and thus commends it to the favorable consideration of the Indiana Legislature:—

The subject is of importance enough to command the attention of our Legislature, which has just resumed its session. It is the opinion of many friends of Free Banking that the bill which has passed the House and is now pending in the Senate is so stringent that no banks will be organized under it. If this is the case, and if an amendment like the Wisconsin feature, would breathe vitality into it, without causing the least jick of the loss of a dollar to bill holders, it is, at least, worthy of the gravest consideration.

THE VOTE IN THE WHIG CONGRESSIONAL CAUCUS.—The Rochester *Democrat* gives the following classification of the vote in the Whig Congressional Meeting, on sustaining Mr. MANGUM'S decision, which ruled out Mr. Marshall's Compromise resolution:

AYES.

Senators.—Clarke, R. I.; Davis, Mass., Fish, New York; Millet, N. Jersey; Smith, Conn.; Sprague, Delaware; Underwood, Ky.; and Wade, Ohio.

Members.—Goodenow, and Washburn, Maine; Hubbard and Markham, Vermont; Fowler, Goodrich, Saudder, Mass.; G. G. King, R. I.; Chapman, Conn.; Bowne, Briggs, Hascall, Hosford, Sackett, Schoolcraft, Walbridge, Wells, New York; Allison, Chandler, J. W. Howe, T. M. Howe, Kuhns, H. D. Moore, Pa.; Barere, L. D. Campbell, Hunter, B. Stanton, Taylor, Ohio; Benton, S. W. Parker, Indiana; Yates, Illinois, Pennimam, Mich.; Morehead, Stanley, N. Carolina; Gray, Ward, Ky.; Cullom, Tenn.; Potter, Missouri—Total 46.

NAYS.

Senators—Brooke, Miss.; Cooper, Pa.; Morton, Fla.

Members—Appleton, Mass.; Brooks, Hawn, Haven, Martin, Schermerhorn, New York; Cabell, Fla; Clingman, Dockery, Outlaw, N. Carolina; P. Ewing, Marshall, White, Ky.; Gentry, Williams, Tenn.; Landry, Moore, Louisianna; Strother Va.—Total 20.

Ayes—Northern	38	*Noes*—Northern	7
Southern	8	Southern	13
	46		20

CENTRAL ROAD.—The following table will show the traffic on the Michigan Central Road for three months of 1851-'52:—

	1851.	1852.	Increase.
Jan.,	$15,674 09	$33,573 66	$18,399 66
Feb.,	20,110 23	151,728 66	131,619 43
March,	69,731 06	243,379 69	193,648 69
	$105,015 29	$428,682 05	$323,667 60

This is sufficient evidence of the value of the stock of this road in the market. Such an increase in receipts, is almost unparalelled in the history of railroads.—*Detroit Free Press.*

PRESIDENTIAL PREFERENCES.—The Madison *Democrat* closes an article, speculating upon the probabilities of the nomination of the nomination for the Presidency, with the following indication of its own preferences:

We would prefer, of all things, the nominations of Webster and Cass—the two greatest men of either party. It would give a dignity, an intellectuality to the contest, which no recent presidential canvass has possessed, and the result would be an exact test of the comparative strength of the two great parties of the country. However the contest might terminate, every man could but feel proud of the intellectual greatness of his country.

HOTEL RESPONSIBILITIES.—Two brothers, named Simms, who stopped at the Indian Queen Hotel, New Orleans, on their way from California, and while there had their trunk robbed of $5,225 in gold, have received a judgment for that amount against the proprietor.

Judge Buchanan, of the fifth district Court, decided than inn-keepers are liable for the property stolen from strangers and travellers sojourning at their inns.

CANAL AT THE SAULT.—Mr. Hamlin, the Loco chairman of the Senate committee on Commerce, has asked to be discharged from the further consideration of the petitions for government aid in the construction of a Ship Canal around the Sault St. Mary. Thus it is that the great interests of the Northwest suffer from the neglect of those who rule the day in Congress.

QUICK TIME.—The crack steamer *Winfield Scott* made the trip around from New York to Panama in 48 days 10 hours running time—being the quickest trip on record.

Great time—but nothing to that which her namesake will make next fall from Jersey to the White House at Washington.

CLEVELAND AND TOLEDO.—The Cleveland papers announce the purchase of the iron for the whole line between that city and Toledo. They state that the road will be completed to Monroeville, by November next.

SPANISH MERINO BUCKS.—The Kenosha *Democrat* says that Mr. W. R. SANFORD, of Vermont, will be in that town about the 1st of June, with a fine lot of full blood Spanish Merino bucks for sale. Farmers will do well to be on hand.

RACINE COLLEGE.—The corner stone of this edifice is to be laid to-morrow. The *Democrat* says that the funds for its completion have been subscribed.

GENEROUS AID.—Messrs. Hamilton, Peebles, & Co., of Hanging Rock, Ohio, have given $1000 in aid of the sufferers by the Chillicothe fire.

Ice in the Straits. No opening yet!

By the following from our correspondent at Manitowoc, it will be seen that the prospect of the Straits is poor enough. Other news will be found under our marine head.

MANITOWOC, April 30.

Messrs. Editors:—

A vessel has just arrived here from the Beaver Islands which reports the ice in the Straits, as being three feet thick and no signs of a break up.—She also reports several Vessels and Propellers as being anchored there, awaiting the movements of the ice.

There is also an arrival here to-day of a Mr. James Duncan, from Marquette, who is erecting a forge at the Iron Mountain on Lake Superior.—He reports the snow 4 feet deep in the woods and ice at the mouth end of Green Bay. He was five days in coming through.

Thinking you would like the above intelligence for your paper, I send it as I got it, which can be relied on. Yours, truly, J. S.

For the Daily Sentinel.

People's Feast-day.

Yesterday afternoon a large number of the citizens of Milwaukee met at Dickerman's Block, for the purpose of discussing the idea of a People's feast-day. DR. F. A. LUNING was chosen chairman and F. SCHLOEMILCH, Secretary. Most of the Societies of this city were represented by 3 Delegates each.

On motion it was resolved:

1. That such a feast-day should take place.
2. That this festival shall be held on the 3d of June.
3. That a Committee of arrangements be chosen, which resulted in the choice of the following gentleman, viz:

H. Haertel, H. Crocker, Dr. Jung, Joshua Starks, F. Schloemilch, Chr. Meyer, Chs. Best, A. Krueer, W. Finkler, Zander, Steinbeis, Finger, Ph. Best, Elebracht and Regenfuss.

Oratorio of the Seasons.

The performance of this Grand Oratorio, postponed from last Friday in consequence of the bad weather, will take place *to-night* at the Society's Hall, Dickerman's Block. It is for the benefit of Mr. BALATKA, the able and indefatigable Conductor, and will be given *for this occasion only*.—For those therefore who are not Members of the Musical Society, it will be the *only* opportunity of hearing this superb composition. The Oratorio will commence at half past seven o'clock, precisely. Tickets (50 cents each) and the printed words and description of the Oratorio, in English and German, for sale at the City Bookstores and at the Hall.

ADVERTISEMENTS TO-DAY.—See the card of Messrs. WELLS & HILL, one of our leading forwarding and commission houses, enterprising, wide-awake, prompt and faithful in the execution of all business entrusted to them by others, as they are shrewd in looking after their own.—Messrs. W. & H., as will be seen by another advertisement, have purchased the right to Hawkins' Patent Stave Dressing Machine, a most ingenious and valuable affair, of which we said something the other day, but not as much as it deserves. It needs only to be known, to make a fortune for the owners of the patent.

J. MAGIE, is out with the spring card of his wholesale and retail clothing and furnishing establishment. Should we ever have summer weather again, the choice selections which he has made of stock, will invite eager purchasers. If we must have winter throughout the year, he is well provided for that too.

See also—of course the public will see—the usual season manifesto of our friend, S. JOHNSON, Jr., of the quantity, quality, and variety and excellency of his stock of Drugs and Medicines, with the thousand *et-ceteras* which crowd his large store. The house is one of the oldest in the state, and enjoys a most favorable reputation among a large list of good customers.

CIRCUIT COURT.—The May Term of the Circuit Court for Milwaukee County, commenced yesterday, Judge HUBBELL presiding. The Judge arrived from the West in the noon train and opened Court in the afternoon. The Grand Jury were called and sworn, and after some routine business the Court adjourned till 9 o'clock this morning.

The following is the Grand Jury for the present term:

SMITH ARNOLD, *Foreman.*

Gideon Hewitt,	J. N. Messenger,
Moses Kneeland,	William Mullen,
J. V. Platto,	Daniel Phelps,
William Furlong,	L. S. Curtis,
Edw. Collins,	W. Burke,
Jno. Hayden,	A. Ely,
Jonas B. Barndt,	J. H. Cordes,
L. B. Potter,	Francis Conrad,
J. A. Phelps.	

MILWAUKEE MUSICAL SOCIETY.—The first annual meeting of the Milwaukee Musical Society, under their new Charter, was held at their Hall in Dickerman's Block on Saturday evening last.—The following Officers were chosen to serve for the current year:—

President—JACOB MAHLER.
Vice " REUBEN KING.
Secretary—JOSHUA STARK.
Treasurer—ED. DIEDRICHS
Managers—EDW. HOFFMAN, C. F. KASTEN.
Musical Director—JOHN BALATKA.

THE CONTRACTORS!—No Mail from New York again, except an old one, and again none from Buffalo—the latest date from the first being the 26th. Oh! if the authorities could only get the Union finally saved once, and get time to "compromise" with the Mail Contractors!

☞ The alarm of fire between 4 and 5 o'clock, yesterday afternoon, was caused by a burning chimney, at the corner of Wisconsin and Jackson Streets. No damage done.

AUCTION SALES.—WALL sells the stock of furniture belonging to Mr. Force in the 4th ward, this morning.

SHANNON & CONOVER also have a large sale at their rooms.

FURNITURE SALE.—See Rooney's advertisement of the sale of Dr. Hatchard's furniture. The Dr does not leave the city, but after breaking up housekeeping, will reside in the same house, with his partner.

☞ The Women's Temperance Convention held at Rochester a few weeks since, adopted a series of resolutions, of which the 10th is as follows:—

Resolved, That the woman who consents to live in the relation of wife with a confirmed drunkard, is, in so doing, recreant to the cause of humanity, and to the dignity of true womanhood.

EMIGRATION AGENT.—We hear that Mr. LANGE declines the appointment of Emigrant Agent, preferring to continue in his present occupation. If so, we trust that the Governor may hit upon as good a man to fill his place.

☞ We understand that the intention of the Steam Mill Company is to build on the site of the mill recently burned, a Saw Mill, with one run of stone attached. It is thought that this will be a more profitable investment than a flouring mill alone. One run of stone, it is expected, will do all the milling required for the present. The demand for lumber is so great that this and out other two saw mills can be kept in constant and profitable operation. The work is to be commenced in a short time.—*Washington County Blade.*

LAKE SHORE PROTECTION.—Part of the residents on Chatham st. have, at last succeded in protecting their lots from the encroachment of the Lake. We noticed this morning, that there was a beach at least sixty feet in width, in front of Messrs. Cary & Hinds's lots. It is done by putting a pier, like harbor piers, out in the Lake some sixty or seventy feet, and the sand that is driven up by every north-easter is retained by them.—*Kenosha Democrat.*

St. Joseph, Mo., April 27.

Within the last twenty-four hours several hundred emigrants have arrived. The suburbs of the city have the appearance of a military encampment. Health of the emigrants first rate. There has been no cholera as far as reported.

An English Election.

The following description of the proceedings at an election for member of Parliament for Newport in Monmouthshire, is from the London Times. Such scenes are frequent, and pass without special notice in England; but when anything of the kind happens once in a dozen years in the United States, the English newspapers are sure to trumpet it abroad as a proof of the barbarism of Americans:—

A whole street of small voters, who had distinctly promised to vote for the Liberal cause, had before 10 A. M. polled for the blue: and various others, who declared that they would stick to their colors and vote in accordance with their consciences, after two P. M. unless they got upward of £20 per head, polled for the blue by half past nine A. M.! Votes appeared to be dear in the morning: but contrary to the usual custom, and when it was found the red party would not buy, their market value fell in the afternoon, for, at one P. M. an express arrived, offering me the votes of one hundred "free and independent electors" for 20s a head. And at half-past two four men very respectfully offered themselves for 2s 6d each, and when this was declined, they were willing to support free trade for the small amount of 3d each—the value of a pint of beer.

The non-electors felt terribly indignant, and a continuous battle throughout the day was the consequence. Windows were smashed, houses gutted, carriges overturned, reds trampled on by blues, and blues trampled in their turn by the reds. Noses were bleeding, eyes blackened, heads cut, and limbs and ribs broken. Barrels of beer were rolled into the houses of the blues, and red and blue vagabonds were rolling and fighting over them. Yells of "Baily forever!" "Lindsay forever!" rent the air, leading to the most desperate fights. The town was full of athletic men from the "Hills," of determined character. A county magistrate brought down by special train from five to seven hundred miners, from his works, armed with sticks, bludgeons, and life-preservers, and lodged them at SIX P. M. in a large inn called the Parrot. These men so exasperated the townspeople, who were chiefly Liberals, that they, in consequence, attacked the inn, drove those men *en mass* from it, tore down the doors, forced out the windows, and so dismantled the house.

ATTEMPT AT MURDER.—We find in the Aurora *Beacon* of the 29th ult., the particulars of a premeditated and cold blooded attempt to commit murder, in Squaw Grove, DeKalb County, on Sunday last.

The facts appear to be these. Two brothers named Perry and Ira Wiggins, had made particular arrangements with Mr Loran B. Heath, a respected citizen of Square Grove, to go with them to California. For some reason deemed sufficient by Mr. Heath, he declined accompanying them, which so exasperated the Wiggins, that they threatened to shoot both Mr. Heath and a man named Fisher, who had proposed to join the party.

Early on Sunday evening last, Ira Wiggins had concealed himself in Heath's barn, with a double-barreled gun, one barrel loaded with two balls, and the other with shot. As Mr. Heath was shortly after in the act of feeding his horse, he was fired upon by Wiggins, at a distance of only a few feet, the two balls entering the side of his face, passing outside of the bone one, lodging, and the other escaping behind the ear.—Heath fell, but soon made an effort to get up when Wiggins discharged the other barrel at him, a few shot only taking effect in his arm and side. Supposing he had dispatched his victim, Wiggins instantly cut the horse loose, mounted him, and made his escape. Mr. Heath soon revived from the stunning effect of his wounds, and was fortunately able to make his way to a neighboring house.

The alarm immediately spread, and early on the following morning the neighborhood started in pursuit of Ira Wiggins. He was soon overtaken some three or four miles from the scene of his horrid crime. After some slight resistance he was finally arrested.

The two brothers were forthwith arraigned before a sati-factory examination were fully committed, and remanded to Sycamore Jail, where they will await their trial, which takes place at the September term of the Circuit Court.

CALIFORNIA GOLD.—We learn that the total amount manifested, in 1851, as per the estimate of Hussey, Bond & Hale, of San Francisco, was $42,695,139

Add fifty per cent. for amount not manifested, and carried overland,	$21,397,570
Coined and manufactured,	500,000
In hands of miners, bankers, &c.,	6,000,000
Total production, 1851,	$70,692,709

Another estimate makes the amount as high as $82,376,147. The following estimate is supposed to be an approximation towards correctness:

Mint receipts California gold,	$55,938,232
California foreign shipments,	10,479,111
Add one-third for carried overland and constwise, and by foreign passengers,	3,000,000
Coined, manufactured, miners' hands, &c.,	7,000,000
Total,	$76,810,380

Subject to a futher augmentation by the amount exported from the Atlantic coast, specimens retained, manufactures of jewelry, &c, and probably some diminution for an over-estimate of the amount carried out of California, in the hands of passengers, to foreign ports.—*Boston Atlas.*

COUNTERFEITERS.—A "boat load of counterfeiters arrested at Newport, Kentucky, Thursday!" William Adams, Charles Beverly, Capt. R. D. Baxter were first secured. On search, a carpet bag and trunk full of counterfeits were found on board the Canal Boat. The crew, Alfred Baxter, Horace Shirley, A. H. Stedman, and Bohan Day were also arrested. Others of the gang—said to be abroad—and to have "plenty of stuff"—had escaped. It was supposed they would be caught. The counterfeits, signed and unsigned, were:—2's on the State Bank of Ohio, 5's Merchants and Mechanic's Bank of Pittsburgh, 1's Northern Bank of Kentucky, 5's on the Thames Bank of Conn., 20's State Bank of Ind., 1's Clinton Bank of Columbus, 5's, and 20's on the Commercial Bank of Florida, 3's State Bank of Ohio, 1's 2's and 2's on the Farmers Bank, Oakland, Michigan.—*Detroit Tribune, 27th.*

☞ It is now reduced to a certainty that the Ohio Legislature will adjourn over until next winter. Thus the "grave and weighty" constitutional *reform* (?) of biennial instead of annual sessions, will be nullified in practice;—and thus, we doubt not, it will be done, so long as Locofocos maintain ascendency in the General Assembly. It was promised, most vociferously, that biennial sessions would save half of the expense of our State legislation. It is seen how fallacious is this position. The new constitution has increased the expense of the legislative department, nearly doubled those of the executive, and multiplied those of the judiciary nearly five fold. And in what sense we should like to know, is it better than the old?—*Scioto Gaz.*

INDIAN CENSUS.—Efforts have been made for a year or two past by the Government to obtain a census of the Indian population now inhabiting the United States. By the accounts received from the census agents, and information derived from other sources, it is ascertained that the entire number of Indians inhabiting all parts of our country amounts to about 518,000. Of this number 49,000 is the estimated number of those inhabiting the unexplored territories; 24,100 belonging to the tribes living in N. Mexico; 32,331 are in California; 22,733 are in Oregon; 11,500 in Utah. Many of the New Mexican Indians are civilized, and have fixed habitations and towns.—*Nat. Int.*

☞ The death of the Assistant Treasurer, has caused no little inconvenience in our financial circles, there is no provision in the Law for such an emergency, and the vaults are under seal, and must be kept so until the commissioners appointed by the Secretary of the Treasury, have examined the accounts of the late incumbent, and made their report. The drafts on the Sub-Treasury which have come forward, have, most of them, been protested to secure the present holders, as no disbursements can be made, until a new Treasurer is appointed, and has given sufficient securities.—*Jour. Address of the Seceders—Imprisonment of Col. Fremont.

WASHINGTON, April 22.

The *Republic* of this A. M. contains an address of the seceding Whigs three and a-half columns in length. It is high toned and calm, but positive for sustaining the compromise measures. It has no disposition to disturb the harmony of the party, but it cannot maintain any candidate of the party who is unpledged upon the finality of the Compromise, and the maintainance of the Constitution.

It breaths a spirit of conciliation, and the *Republic* editorially, thinks that all will yet be right.

The address concludes by saying that if both parties fail to shape the future organization on enlarged and fair principles, that there is but one resort, and that is that the people organize an Independent party.

Letters have been received here from Col. Fremont in London which states that a number of officers called at his hotel on the evening of the 8th instant, and in the most rude and savage manner arrested and conveyed him to prison where he was kept a close prisoner for twenty-four hours.—The Col. states that the charge was made against him by unknown parties, for liabilities amounting to $78,000 growing out of the conquest of California.

SENATE.—Mr. Gwin asked the Senate to take up the bill containing a board of Commissioners for examination and payment of claims against the United States, growing out of the conquest of California. (He did so for the reason stated in the above paragraph.) The Senate then took up the bill.

HOUSE.—Mr. Olds asked the consent of the House, upon the introduction of a resolution, calling upon the President to communicate to the House all the information collected by Mr. Slocum of Mexico, relative to the Gardiner, Haupt, and other claims.

Also, why the prosecution of Gardiner for perjury has been so long delayed in the Criminal Court of this District, and whether any member of the Cabinet is implicated with said Gardiner. Mr. Brooks objecting, the resolution was not received.

Mr. Jones of Tennessee, moved that the House should go into Committee of the Whole on the Homestead Bill. The yeas and nays were now being taken.

In the Senate to-day, 27th, Mr. Seward made a lengthy speech in favor of Collins' steamers.

The House debated the Homestead Bill.

Congress.

Washington, April 24.

Senate—Not in session.

House—Mr. I. Handly, of Pa., presented a petition seven yards in length, full of names, asking the passage of the Homestead Bill, and the House went into committee on that measure.

Mr. Ewing began a speech by saying he was inclined to give the bill his vote, and branched off to give his views of progress. In this connection he spoke of Kossuth's mission as a failure. He alluded to Douglas' and Cass' views about intervention in the affairs of Europe, which he condemned.

Mr. Sibley spoke in favor of the Homestead bill.

Mr. Ficklin, of Illinois, advocated the measure. The Committee then rose.

Mr. Moore, of Pa., presented a memorial from 500 citizens of Philadelphia, asking for the passage of the Homestead bill.

The House adjourned.

Washington, April 26

Mr. Dean's speech in the House on Friday is regarded as a manifesto of the democracy of New York against Gen. Cass.

An anonymous handbill against Gen. Cass, showing why he could not be elected, and bringing certain charges against him, has been circulated here for a few days past. Its authorship has been traced to George Lynch, of Pittsburgh—an agent of Mr. Buchanan's.

WASHINGTON, April 22,

It is now settled, that a National Free Soil Convention is to be held during the summer. The meeting will probably be held at Pittsburgh, but if not, then at Cincinnati.

The chairman of the committee has power to call the convention.

Mr. Clay has telegraphed to his son to come on to him, on account of his continued illness.

TRENTON, April 27.

The Whig State Central Committee have issued a call for a State Convention, on the 2d day of June, to choose delegates to the Whig National Convention.

Washington, April 27.

In the Supreme Court yesterday, Mr. Gillet, Counsel, for O'Reilly and others, in the case of the Telegraph Patent, applied for a continuance of the case to the next term, of the ground of the unavoidable absence of his colleague.

Mr. Morse's Counsel stated that they were ready and anxious to go on with the case, and that models had been prepared with great care and expense to illustrate the case before the Court. The case was finally put over to the next term.

New York, April 26.

Florida Democratic Convention on the 19th inst., nominated James E. Broome for Governor, A. P. Maxwell for Congressional delegate, D. L. Yulee and Dr. S. W. Spencer for delegates at large to the Baltimore Convention. The first resolution affirms the Virginia resolutions of 1798; 2d; endorses the Baltimore resolutions of 1844; 3d; deprecates the revival of particulars; 4th, appoints 14 delegates to the Baltimore Convention, uninstructed. No preference is expressed, but Douglas is understood to be the first choice for President, and Jefferson Davis for Vice President.

New York, April 27.

It is authentically reported that Hon. Luther Bradish has accepted office of Assistant Treasurer of the Port of New York, tendered him by President Fillmore. It is the post made vacant by the death of Ex-Gov. John Young.

A fortnight's later news has been received from Australia, but it shows simply the fact that there is an increased productiveness in the mines by the announcement that a ship was about to sail for England with $150,000 gold dust—being the largest shipment yet made from the Colony.

The Washington had not arrived at Cowes when the Franklin left, although she was 29 days out, and much uneasiness was felt on her account.

Accounts from China states that an English Frigate had visited one of the Japanese Islands, and every attention and kindness had been shown the Captain and crew.

The London correspondent of the Commercial Advertiser says: Railway shares and speculative stocks exhibit still greater improvement, and supposing no political interruption to occur, there is every reason to anticipate that the advance will be generally maintained. At the date when the funds formly went to 101 ½, the stock of bullion in the bank was not more than £16,000,000, while it is at this time little short of £20,000,000, with a certainty of an uninterrupted increase

The greatest distrust prevails against all new schemes—Californian and Australian Gold Companies included.

No rain has fallen for a long time, and the country looks as though it had experienced the severities of a protracted drought. The manufactures however, have been the chief sufferers.

Halifax, April 29,

The Steamer Washington, from Bremen and Southampton. Capt. Floyd, put into Milford on the 15th inst., short of coal.

Annapolis, April 29.

The Legislative committee to examine and report on the expediency of a bridge over the Susquehanna, at Havre de Grasse, have reported in favor of its immediate construction.

Baltimore, April 29.

The crew of the ship Selden mutinied below Charleston on Friday last, and then escaped to that city.

The Virginia medical convention met at Richmond, 27th inst., and framed a board of medical examiners.

New York, April 27.

Yesterday, Charles H. Palmer, charged with fraud in the selling of California tickets, voluntarily surrendered in bail in the sum of $5000. Disclosures are promised, involving in the case men of wealth and former high standing.

Kossuth met with a gratifying reception at Boston in the Massachusetts Legislature.

THE GREAT QUAKER CASE DECIDED.—The Supreme Court of Massachusetts, in the case of Earl et al., Chief Justice Shaw, delivering the unanimous opinion of the bench, having decided in favor of the claims of the body of the Society against those of the few who separated from them in 1845, under an organization commonly known as the Wilbur meeting, and that the body of the Society in New England remains a sound consistent body of the Society of Friends, and that their disciplinary proceedings had been regular throughout, and that those who separated from them have no claim to the property in contest.—The opinion was elaborate and full, and exceedingly able, occupying more than three hours in the delivery.

A COMPARISON, DRAWN BY WOMAN AND OXEN.—The Rev. Dr. Chamberlain, a clergyman in Norwich city, Conn., in 1771, was an exceedingly quaint and original preacher.

Remarking at one time upon the excuse made by the guests invited to the wedding feast, he observed that the one who had bought 5 yoke of oxen simply entreated to be excused, while the one who married a wife, absolutely declared that he could not come. "Hence learn," said the preacher, "that *one woman can pull harder than five yoke of oxen.*"

☞ "The fire is going out, Miss Filkins."

"I know it, Mr. Green; and if you would act wisely, you'd follow its example."

It is unnecessary for us to add, that Green never axed to sit up with that gal again.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, May 4, 1852.

We have little change to notice in the market since our last week's report. Trade seems to have waked up a little and many of our merchants are receiving their early goods by railroad across the country. The receipt of the bulk of their spring stocks is already a month behind last year, and the prospect is that some days must yet elapse before any goods can be received by vessels through the straits. A large number of vessels have cleared from Buffalo for the upper lake ports with heavy cargoes of merchandize, and the warehouses east are groaning under the weight of goods accumulating rapidly by railroad and and canal. With a few days of good weather, we may look for a fair opening of spring business; though soring will have well nigh gone before the business season opens.

FLOUR—Trade dull and mostly confined to the home trade. We quote country from Spring Wheat at $2,25a2,75, mixed $2,50a2,25, No. 1 city and country 3,50a4,00, extra family do 4,00a4,25. Sales 75 bbls extra at $3,00, 75 bbls No. 1 at 3,75, 70 bbls straight brands at 3,25.

Riot on the Steamer Globe—Three Men Killed.

A dispatch from Dunkirk, dated April 28th, says, the Steamer Globe ties off Silver Creek in the ice. There was a riot on board last night between Germans and Americans, Three Americans are killed. There were about 1300 Germans and 100 Americans.—*Chicago Tribune*, May 3d.

☞ The steamer Hudson left Detroit on Thursday morning last, for Chicago, Captain Imson, it is said, was determined to make his way through the Straits. We hope he may succeed.

P. S. Since the above was in type we learn that the Hudson returned, yesterday morning, to Detroit, not being able to pass through the ice at the foot of Lake St. Clair, which a northerly wind had driven there. Capt Imson intended to make another trial to-day.—*Ib.*

ICE, ICE—The Ruby came down from Pt Huron yesterday morning. She reports ice all out of St. Clair river, but large fields of it on the flats, in the head of Lake St. Clair. She made a short run up into Lake Huron, and with the help of a glass, could discover no ice, excepting on the Canada shore. Fishermen report considerable ice in Thunder Bay.—*Det. Adv* May 1st.

A PROPELLER IN JEOPARDY.—We are informed by Captain Spencer, of Charlotte, says the Rochester Advertiser of the 27th ult., that the Propeller F. W. Beckus, Capt. Langley, but into that place yesterday afternoon, in a sinking condition—having some four feet of water in the hold.—She was laden with flour and leather. The boat was from Detroit, and bound for Ogdensburgh, and happily made the port there in time to prevent her from going down. There some two thousand barrels of flour on board.

FROM THE STRAITS.—We learn that a vessel which arrived here yesterday from the Beaver Islands, reports the ice in the Straits as continuing solved. We could not learn what day she left the Islands. She brought up some of the passengers of the Lady of the Lake.—*Chicago Tribune.*

Paducah, Ky., April 27.

The case of Dr. Haynes was taken up in the Circuit Court this morning. A motion was made by the prisoner's counsel for a continuance of the trial. The arguments on this point occupying the Court all day. Judge Williams will give his opinion to-morrow.

Bigamy is the action brought against him, through it is generally believed that other crimes could be made out if the evidence was here.—Much excitement prevails among our citizens.

Newspapers in the United States.

COMPILED BY J. H. ROCK, CENSUS OFFICE

The statistices of the newspaper press form an interesting feature in the returns of the 7th census. It appears that the whole number of newspapers and periodicals in the United States, on the first June, 1850, amounted to 2,800. Of these 2,491 were fully returned, 234 had all the facts excepting circulation given, and 72 are estimated for California, the territories, and those that may have been omitted by the Assistant Marshal.

From calculations made on the statistics returned, and estimates where they have been omitted, it appears that the aggregate circulation of those 2,600 papers and periodicals is about 5,000,000, and the entire number of copies printed annually in the United States, amounts to 422,000,000.

The following table will show the number of daily, weekly, monthly and other issues, with the average circulation of each class :—

	No	Circulation	No. of copies printed annually
Dailies	350	750,000	235,000 000
Tri-weeklies	150	75,000	11,700 000
Semi-weeklies	125	80,000	8,320 000
Weeklies	2,000	2,875,000	149,500 000
Semi-monthlies	50	300,000	7,300 000
Monthlies	100	900,000	10,800 000
Quarterlies	25	20,000	80 000
	2,800	5,000,000	422,700 000

424 papers are issued in the New England States, 876 in the Middle States, 716 in the Southern States, and 784 in the Western States.

The average circulation of papers in the United States, 1,785.

There is one publication for every 1,161 free inhabitants in the United States and territories.

OFFICIAL STATEMENT OF THE NEWSPAPERS OF EUROPE.—Issued at Paris 169; London 99, Berlin 79; Leipsic 68; St. Petersburg 36; Vienna 24; other places 883; 1,356—whole number of newspapers in Europe. The "Constitutional," published at Paris, has a list of 30,000 subscribers; the "Presse," 24,000; the "Patrie," 14,000; the "Journal des Debats," 11,000; the "National," 5,000.—*Norton's Literary Almanac.*

How to bring a Witness to the Point.

Lord Cockburn was one of the most intimate friends Jeffrey had—first his associate and friendly rival at the Scottish bar, and afterwards his brother on the Scottish bench. Many stories, perhaps mythical, are current in Scotland, bringing out the contrast of the two friends—Jeffrey and Cockburn—in their characters of barristers addressing Scottish juries; Jeffrey, the clear, attic intelect, sparkling in a distinct, musical voice, from which the Scottish accent has been almost eradicated; Cockburn, the Scotchman all over, and, what is more, the Scotch humorist. One of the stories is as follows:

In one case, in which Jeffrey and Cockburn when barristers, were engaged, when a question arose as to the sanity of one of the parties concerned.

"Is the defendant, in your opinion, perfectly sane?" said Jeffrey, interrogating one of the witnesses a large, plain, and very stupid-looking countryman.

The witness gazed in bewilderment at the questioner, but gave no answer. It was clear he did not understand the question. Jeffrey repeated, altering the words:

"Do you think the defendent capable of managing his own affairs?"

Still in vain—the witness only stared the harder.

"I ask you again," said Jeffrey still with his clear English language, "do you consider the man perfectly rational?"

No answer yet, the witness only staring vacantly at the elegant little figure of his interrogator, and said "Eh!"

"Let me tackle him?" said Cockburn.

Then assuming his broadest Scotch tone, and turning to the obdurate witness:

"Hae you mull wi ye?"

"Gu ay," said the awakened Cumon, stretching out his snuff horn.

"Noo, hoo, lang ha ye kent John Samson?" said Cockburn, taking a pinch.

"Ever since he was that high," was the ready reply, the witness indicating with his hand the alleged altitude of Sampson, at the time of their first acquaintance.

"And dy'e think hoo, atween you and me," said the barrister, in his most insinuating Scotch manner, "that there's ony thing intil the creatur?"

"I wudna lippen him wi a bull calf," (I would not trust him with the guardianship of an infant bull,) was the instant and brilliant rejoinder. The end was attained, amid the convulsions of the court, what Jeffrey could not do with all his cleverness, Cockburn had done by dint of his inveterate Scottcism.

A Card—Instructions in German.

MR. A. ROESLER, formerly a Professor of the German language and a literateur in the Royal College at Oels, in Prussia, and a member of the German Parliament at Frankfort, on the Main, would offer his services to those ladies and gentlemen of Milwaukee as an instructor in the German language. The Timbered Lands are choice selections, and are chiefly of sugar, with some Wisconsin and Pine intermixed, from one to three miles from the Village, where a favorable opportunity from the abundance of good sawing timber, the price of lumber, and the facilities for market, is offered for a profitable investment in manufacturing lumber by steam power.

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING.

CERTIFICATE OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by on-close inspection of the excellent quality of the same. ERNO MEYER.
Druggist, 374 W. Water-st., 2nd ward.
Milwaukee, Feb. 3, 1852.

The above found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and superb construction recommend this kind of Tile, not only as a tasteful and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the whole Tile as well as to the whole covering an absolutely immovable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, gives them the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified to recommend to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, Architects
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

To G. Græssle.—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR in Lansingburgh, 1850 at the State Fair of the State of New York, and at the Great Fair of the American Institute. Of course it can be procured, because it is the BEST soap in use. If any are still skeptical, let them read the following—the name to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

We have used Crane's Patent Soap in our families for the past eight months, and pronounce it fully equal to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In entering our States for the coming year, we do so with the full assurance that we can supply better articles than can be purchased in any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE.
(Which received the First Premium at the State Fair, lately held at Janesville.)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that every part of the oven must be used at pleasure. It will cook in both the oven of any other stove now in use, and with half the fuel, or consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent cooking stove that has been well tested, and given perfect satisfaction.

The PREMIUM is different in its construction from any other hands, in the arrangement of the fire it is easily controlled to have a great fire power.

The KING PARLOR is adapted to either wood or coal, being the neatest parlor stove ever offered to the public, unites all the conveniences of the stove, and retains the beauty of the open grate. It is beautifully ornamental, likely to admire, and perfect in every respect—the entire top is plane, and below the grate being open for coal, with three doors to close the fire, or when open for wood, with a movable cast iron fender. It is equally adapted to others as well as parlors.

The RADIATOR is the best coal stove ever got up as a stove of heat.

For on purchasing their stoves of us in the every of any of the places getting broke, can at all times be supplied with castings, &c., superseding the necessity of throwing away stoves, which many are daily compelled to do in buying from new ware.

Persons who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. Call and examine for yourselves. All we ask is to see in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.
